Specifically, reference is made to issued claims 1-12 and specifically claim 1 with respect to the description of the air temperature controlling device, claim 3 with respect to the power source, claim 5 with respect to the wire coil and claim 6 with respect to sensing. See the specification at page 29 regarding claims 38 and 39.

With respect to new claims 39-47 reference is made respectively to claims 34-42 which were pending in the parent application and the specification at page 29. With respect to new claims 48-57 reference is made to claims 32-42 which were pending in the parent application serial no. 09/839,248. With respect to new claim 58 reference is made to allowed claim 32. With respect to new claims 59-63 reference is made to allowed claims 50-54.

Without acquiescing to the obviousness of the invention claimed within the pending claims relative to the invention claimed within prior applications applicants have filed a terminal disclaimer to expedite prosecution.

Applicants respectfully request reconsideration of the application in view of the amendments and remarks made herein.

No new matter has been added.
